74th Multibeam Sonar Training Course
New Orleans, January 8 to 13, 2018

When: From 0800H Monday January 8, 2018
To 1600H Saturday January 13, 2018

Where: Orleans Ballroom, 2rd Floor
Bourbon Orleans Hotel
717 Orleans St, New Orleans, Louisiana 70130
[29° 57' 32" N, 90° 3' 53" W]

Cost: The registration fee is $3,800, which includes course materials and lunch for 6 days, but not accommodation.

Accommodation: A block of 40 rooms is reserved for the course at the Bourbon Orleans Hotel, and the reservation cut-off date is December 8, 2017. The Government per diem rate will apply to those with government ID.

When you register we will provide further information to allow you to book rooms for the course.

Course Description and Outline

This six-day, 36-lecture course is designed to provide a theoretical and practical background in marine swath survey technology and techniques for hydrographic surveys, continental shelf boundary delimitation, offshore engineering, harbour dredging, fisheries habitat, route survey and scientific research, and provides overviews of:

- the technology and problems associated with shallow water multibeam surveys,
- processing and visualization techniques designed to address the complexities of swath mapping,
- constraints on using swath bathymetry to produce highest quality data.

Day	Lecture	Topic	Instructor
Monday		**INTRODUCTION AND REVIEW OF FUNDAMENTAL CONCEPTS**	
	01	Historical Perspective and Course Overview	JHC
	02	Underwater Acoustics A	TW
	03	Oceanographic and Geologic Concepts	LM
	04	Underwater Acoustics B	TW
	05	Spatial Referencing Terms and Concepts	DW
	06	Visualization Terms and Concepts	LM
Tuesday	07	Hydrographic Performance Standards	DW
		SWATH SONAR ISSUES	
	08	Sidescan Sonar Methods	JHC
	09	Multibeam Sonar Methods	JHC
	10	Bottom Detection Methods	TW
	11	Sidescan / Multibeam Backscatter Imaging	TW
		ANCILLARY SENSOR ISSUES	
	12	Multisensor Integration for Swath Bathymetric Systems	JHC
Wednesday	13	Sound Refraction in the Water Column	JHC
	14	Refraction Operational Limitations due to Watermass Variability	JHC
	15	Positioning Requirements: Horizontal, Vertical & Orientation	DW
	16	Inertial and Acoustic Methods	DW
	17	GNSS Methods: Global Navigation Satellite Systems	DW
	18	Uncertainty Estimation in Swath Methods	LM
Thursday		**SEABED ACOUSTIC BACKSCATTER**	
	19	Acoustic Seabed Interaction Theory	TW
	20	Acoustic Backscatter Image Interpretation	JHC
	21	Introduction to Seafloor Characterization	LM
	22	Oblique Incidence Characterization Methods	LM
		SURVEY DESIGN AND QUALITY CONTROL	
	23	Survey Design and Planning	LM
	24	The Patch Test and Sensor to Ship Reference Frame Alignment	JHC
Friday	25	Field Quality Control: Dynamic Error Recognition and Analysis	JHC
	26	Achieving Decimetre Bathymetry via Ellipsoid-Referenced Surveys	DW
		DATA PROCESSING	
	27	Swath Bathymetry Data Cleaning – Interactive and Automated	JHC
	28	Data Reduction for Chart Compilation Purposes	JHC
	29	The Swath Processing Pipeline	LM
	30	Impact and Management of Dense Digital Bathymetry	DW
Saturday		**CURRENT & FUTURE TECHNOLOGY**	
	31	Midwater Mapping	TW
	32	Alternative Approaches for High Density Bathymetric Data Collection	LM
	33	MBES Specifications	TW
	34	Operational Field Trials: Assessing Performance	JHC
	35	New Data Presentation Methods	LM
	36	Course Roundup and Discussion on Emerging Issues	ALL

Course Schedule

The standard daily schedule is:

0830-0930 – lecture [Monday we start at 0800, to allow time for student introductions.]
0930-0945 - break
0945-1045 - lecture
1045-1100 - break
1100-1200 - lecture
1200-1330 - lunch [If we run overtime in the morning, lunch starts as late as 1230]
1330-1430 - lecture
1430-1445 break
1445-1545 - lecture [Saturday open-ended feedback session (Lect 36) starts after Lect 35]
1545-1600 - break
1600-1700 - lecture
1700-1800 - informal happy hour daily

Advance preparation by attendees

This course is very intensive and fast-paced. Attendees come from various backgrounds and some have found they benefited from some pre-reading for the course. There is no mandatory preparation but we recommend the resources listed below be consulted by those feeling the need for such preparation.

Attendees at previous courses recommended that we provide access to some course materials in advance of the course. Hence, a download link is included in the receipt for payment of course fees, for binder 1 of 3 (we recommend looking at the first 7 lectures in particular). Printed copies will still be provided at the course.

Available at no cost:

International Hydrographic Organization Publication C-13 *Manual on Hydrography* (2005, corrected Feb 2011), particularly chapters 2, 3, 4 and 7
http://www.iho.int/iho_pubs/CB/C13_Index.htm

International Hydrographic Organization Special Publication S-44 *IHO Standards for Hydrographic Surveys*, 5th Edition, February 2008

74th Multibeam Sonar Training Course
New Orleans, 8 to 13 January, 2018

Instructions:
Download free Acrobat Reader <http://www.adobe.com/go/reader>. Open this document and fill in under Acrobat. Save and **email to <mbcinfo@hydrometrica.com>**

Name:

Company:

Address:

Phone:

Mobile:

Official E-mail (which, in some organizations, may restrict document downloads):

Personal E-mail (for download of the course materials):

Briefly describe your past experience with Multibeam Sonar Systems; and/or

future plans for work with Multibeam Systems.

Upon receipt of this registration, we will send you an **invoice** by email, with payment instructions.
Upon receipt of payment, we will send you a **receipt**, including a link for downloading course Binder 1 (of 3).
